Patron

Dr. Mahesh Haphawat

CAREER GUIDANCE TALK SESSIONS

Career in Indian Armed Forces (Military), Indian Coast Guard Police Forces and Defence Civilian Cadres

The youth of today are well-informed, mentally mobile, analytically aware, surgically sharp and clinically precise with the technology at their beck & call. They are inquisitively thorough, exhaustive in examination of their options and intensive in their depth of research. Yet, an adolescent's mind is a constantly vacillating bundle of contradictions as far as contemplating professional goals or chalking out a career path is concerned.

At such times, parents and teachers have to be aware of the various career options themselves so that they can guide the teenagers well.

A career in Indian Armed Forces (Military) promises one of the most prestigious and dignified positions in the country, irrespective of the entry level. Youngsters who aspire to choose a career of excitement, adventure, and challenges can find no better place than Defence to meet all their professional expectations.

The Indian Armed Forces (Military) include Army, Air Force and Navy. Then we have the Indian Coast

Guard and Defence Civilian Cadres in various Defence Establishments, also under the Ministry of

Defence. In addition we have the Police Forces in the Centre and States, prominent of which are the Central Armed Police Forces (CAPFs).

A career in the uniformed forces and Defence Civilian Cadres is different from all other career options.

Many are not aware of the civilian roles, which are non-military roles within various Defence Establishments.

Civilians play an important part in the organisation; bringing continuity to roles and providing specialised skills and knowledge needed to support the Indian Armed Forces (Military).

There are several gateways to a successful career in the Indian Armed Forces (Military), Indian Coast Guard, Police Forces and Defence Civilian Cadres. Each

position has different entry options and requirements. That makes it challenging for the young mind. So the parents and teachers have to make sure that they pick their preferred entry method before applying. We realise that many parents and teachers do not have the wherewithal to offer this advice as many new careers have appeared in the horizon, over the years.

How do we help?

We at Margdarshan Advisory & Consultancy Services assist School/College Administrations by organising Talks/Interactive Sessions/Seminar, by trained counsellors for the benefit of the student community at their site, in accordance with their level of education. We do give preference to schools and colleges where these professions have yet not made a major mark. We are confident that we will be able to bring laurels to your school/college by your students opting for these careers.
