3. Policy for Environment and Energy usage

Environment and Energy Usage

The Environment and Energy usage Policy of Shri Bhawani Niketan P.G. College, Jaipur is to manage energy in a systematic way to minimize its impact on the environment. The policy implies exploring renewable energy resources to reduce the burden on the government and find out substitute natural resources as solutions to the energy crisis. This environment and energy policy is binding for all the components of the institution and applies to all its stakeholders and the various activities undertaken by the institution. It will help us to embed efficiency and environmental awareness into our everyday activities, thus helping us to realize our responsibilities and commitment to the conservation of natural resources and to limit their usage. The college is devoted to the cause of environmental awareness, undertaking green initiatives, and conducting green literacy programs to save energy and protect the environment.

POLICIES:

- To assess our energy usage and measure its impact on the environment.
- To count Co_2 emissions generated by our means of transportation- vehicles.
- To reduce local air pollution emissions using environment-friendly vehicles, including bicycles, public transportation, and the use of pedestrian-friendly roads.
- To install photovoltaic solar panels for the generation of alternate energy.
- To install LED bulbs and tube lights on the complete campus to to minimize energy consumption.
- To develop a systematic waste management mechanism.
- To develop a rainwater harvesting unit.
- To undertake tree plantation drive.
- To take additional measures to continuously improve our energy consumption.
- To ensure the availability of necessary resources to achieve our objectives.
- To engage in dialogue with the government agencies, municipal corporations, and the affiliating university and actively work with the local organizations in the areas of environment, energy efficiency, and sustainable development.
- To monitor and respond to emerging environmental and energy issues.
- To strengthen our employees' and students' environmental knowledge and skills to improve our environmental performance.
- To provide information and training opportunities on energy-saving measures.
- To offer opportunities for employees and students to engage in initiatives those contribute to environmental protection.

This policy is communicated to the students and employees via internal communication channels and is made available to all the stakeholders on the website of the institution. The Environment and Energy Policy, objectives, and targets are reviewed regularly under the guidance of the Principal of the college.
