Zoology Labs

The Zoology Laboratory at Shri Bhawani Niketan P.G. College serves a vital role in bridging theoretical knowledge with real-world biological applications. It is designed to support both undergraduate and postgraduate studies. The lab provides students with hands-on experience in animal anatomy, physiology, and taxonomy, fostering a deeper understanding of the animal kingdom. Coursework is enriched through a wide range of specimens, tools, and advanced equipments.

The facility is outfitted with high-quality microscopes (dissecting, compound, and binocular), a digital weighing balance, colorimeter, spectrophotometer, centrifuge, pH meter, oven, incubator, preserved specimens, slide-making and staining stations, 3D models, articulated and disarticulated vertebrate skeletons, hemoglobinometer, hemocytometer, oculometer, electrophoresis unit, and a soil profile testing kit—giving students a comprehensive edge in practical zoology.

Lab safety is a top priority, with measures including regular tool sterilization, fire extinguishers, and a first aid kit to ensure a safe working environment.

All practicals are conducted under the supervision of faculty members and trained lab technicians.
